<sup>28</sup> Mrs. Gibson, the Burhans copyist, states in a memorandum that the name is "quite illegible." By including the top part of the bracket which joins the names of the parents, she contrived to make the name "Isaih." Every letter in the text is perfectly clear; the only mistake is, that the recorder omitted the "r" in the name "Mariah."

<sup>29</sup> The recorder evidently made a mistake in this name. It should be "Rinehart;" see entries 354, 400, 442, 529, 597, etc.

<sup>40</sup> The month of the baptism is not given; the appearance of this entry and entry 491 indicates that the date should be June 23.

<sup>41</sup> In the text the name "Lunack" was added to the wife's name after the entry was recorded. The recorders appear to have had much difficulty with the names of this couple; see entries 540, 612 and 719.

<sup>42</sup> The surname of the wife is spelled so poorly that it is unintelligible; see entries 453, 573 and 717.<sup>43</sup> It is obvious that the recorder made a mistake and that the year of birth should be "1793."

<sup>99</sup> These letters are as they appear in the original record. The meaning is uncertain. Possibly it is an abbreviation of *weduwenaar*, i. e. *widower*. This supposition would be better substantiated, were it not the fact that the word *born* is in English and not in Dutch. Nevertheless, the first time that the man's name appears, the name of his wife is given as Antie Hardenbergh; see entry 697.
