

# BAPTISMS AT TAPPAN,

FROM OCT. 25 1694, TO JAN. 10 1816.

These baptisms are arranged chronologically from beginning to end. (Those of Clarkstown are entered on a different plan). The order of each entry is as follows:—Name of child, date of birth, date of baptism, father, mother, witnesses. Every name and date and spelling is meant to be exact with the original. When but one date is given, it is supposed to be that of baptism. When the year of birth and the year of baptism are the same, it is given but once, as Feb. 18, 1551, Mar. 21. The figures at the left of the children's names are my own, prefixed for convenience of indexing. In regard to the ever varying spelling of the same names, see remarks in the Introduction to the History.

(1) As this date stands (Jan. 9, Feb. 16), it seems to belong to 1774. But I happen to know from family records that the child "Elisabeth Van Houten" (afterward the wife of Johannes Kool, born 27th August 1770, whose baptism is also on this book) was born Jan. 9 1775. And this confusion of dates frequently occurs in this record. The baptisms could not have been entered as they were performed, but must have collected from scattering papers afterward.

- (1) I can not tell whether in these two cases, the names represent two children, or are simply double names. Perhaps No. 751 is a double name and No. 755 is a pair of twins. I have placed the names here in the same vertical relation in which they stand in the original.  
 (2) The record states that this child was baptized at Schraalen-bergh.  
 (3) I suppose this to mean—born July 30, 1745, baptized Aug. 22, 1755.

[1] The dates from 995 to 1004 inclusive are very puzzling. I suppose 995 means—"Born 24 December 1781, baptized July 14 1782," and 1 Nu. 996 means—"Born Nov. 9 1781—baptized Aug. 12 1782." But again No. 996 may be reversed as is the case with several of these dates to my knowledge, and then it might read—"Born Aug. 12 1782—baptized Nov. 9 1782."

[1] Here is 1789 thrown in between 1783 and 1784. If it be correct and not a slip of the pen, it proves to be true a suspicion which has grown upon me in the study of this record everywhere, that the baptisms were suffered to accumulate upon scraps of paper, and oftentimes entered upon the record from these scraps without due reference to chronological succession. No other theory can account for the confusion of dates.

 Just here, on Folio 95, at the close of the children whose names begin with L, occurs the following entry. I try to put it hero exactly as it is upon the original book.
- |                                 |                                      |                        |

| 1774-1764.                      |                                      |                        |
| 30 September 1766, 23 November, |                                      | [Marta.]               |
| 30 September 1768, 23 November, |                                      | [Elisabeth.]           |

| 15 January 1774, 23 November,   |                                      | [Isaac.]               |
- There is a little clue to the meaning of this singular passage in the record. One of these children comes in regularly in the past pages. See Caption No. 91. There Isaac Sherwood [wife not given] has a son "Isaac" baptized. It appears there that he was born Jan. 15 1774, and baptized Sept. 30 1774.
- On the ground of this clue, I venture the following conjecture as to the meaning of the above entry viz.: It was found, certainly 15 years after the baptism of these six children [from 1774-1789] that their names had not been entered upon the record. Some illiterate person at that late day made this entry. The children were all baptized at once—Sept. 30 1774. What the "23 November," four times repeated, means, I cannot imagine. It is altogether improbable that at least four of them, all in different years, should have been born upon the 23d of November. But I reduce the case to the following form, and number the whole six by one number [1165], so that it can be referred to in the Index:
- 1165 Johanna, born 1763, baptized Sept. 30 1774, Isaac Sherwood, Rebecca Sherwood.  
 Abrah born 1764, baptized Sept. 30 1774, Isaac Sherwood, Rebecca Sherwood.  
 Marta, born 1766, baptized Sept. 30 1774, Isaac Sherwood, Rebecca Sherwood.  
 Elizabeth, born 1768, baptized Sept. 30 1774, Isaac Sherwood, Rebecca Sherwood.  
 Rebecca, born 1771, baptized Sept. 30 1774, Isaac Sherwood, Rebecca Sherwood.  
 Isaac, entered before [see No. 911], born Jun. 15 1774, baptized Sept. 30 1774, Isaac Sherwood, Rebecca Sherwood.

[1] This name has almost faded away in the original, but it is "Jonitau" beyond a doubt. See 433, 811, 853, and 1212. The wife is different in the places referred to, and this may not be the same man. If it is, he had married a second time.

[2] This name is much blurred, but I believe it to be "Jones."

[1] This is a relative of my own. The name should be Benjamin Willis.

[2] I give these names as in the original. I suppose "Federrick" to be fur "Frederick" in the husband's name, "Beth-e" for "Betsey" in the wife's name, and the last "Federrick" to be wrong, the woman having probably been called "Betsey Frederick" from her husband's middle and most used name.

[1] I suppose the order of dates in this entry to be reversed, so that the 26th is the date of birth, and the 27th that of baptism.

[2] I think this is "1780" and that it belongs with the "5 November" of the preceding entry, and means that No. 1549 was born Nov. 5 1780. If the number is 1789, I can not explain it at all.

If this 1777 is not an error for 1779, I can not explain how it comes in between 1779 and 1780. The record is full of such inexplicable difficulties.

[2] To this name, Junnetje Vanderbilt, I find a note in pencil, in handwriting I recognize as my father's, as follows:

"Died Aug. 6 [70-88 yrs., 7 mos., 28 days.]"

The "Annaetje Van Houten" of this No. 1631 [wife of Johanne Vanderbilt] was sister of Catharina [Tryntjenet] Van Houten, my father's mother's mother.

 This old register closes with the entries of 1792, additional to the table above, and 1793 and 1794. They are entered in a different manner from those above, without any reference to the initial of the child's name. They are found on folios 120, 121, 156, 157, 158, 160, 161, 162, 163. The first date in this list is directly stated to be that of baptism, and the second that of birth. Of course the date of birth often belongs to the year before that of baptism.
