Marriages Recorded in

"Church Register
Minutes
Baptisms
Marriages
1683-1728"

NOTE: These records are not copied in Dutch language, since some are made in English, some in Dutch and still others are in both languages. No form is observed, in making entries.

An effort was made to preserve the spellings and capitalizations.

J M is the abbreviation for Jong Man (Young man, and was used to indicate that the man had not previously been married. Age had no part in the matter.

J D is the abbreviation for Jong Daugter (Young daughter) and was used to indicate a spinster. note that the dates are not chronological. One of the interesting things about this book is the mixture of dates, which would lead one to think that the book was made up of loose sheets, which were bound together without regard of dates.
