The publication of the 24th Report of the Record Commissioners of Boston, containing the births from 1700 to 1800, has enabled us to fill up some of the gaps in this record. Where we have found the actual record corresponding with that here, the name has been put in Roman characters in brackets. Where we have found the parents' names only in connection with other records, so that our identification is conjectural, we have put the name supplied in *italics*. — EDS.
